

Group No. : 2

Group Name:

The Avocados

Class: 1/2

Group Members:

1. Julianna del Rosario

2. Diksha Srinivasan

3. Farah Natasya

4. Foo Wen Qi

5. Dallas Win

6. Dev Devesh

What is our project about?

use Student Learning Space (SLS)
as a platform for teachers to assign
students daily homework

SINGAPORE
STUDENT
LEARNING
SPACE

Targets of the Use Less Paper Initiative

- to reduce the amount of paper usage in our school
- contribute to the growing efforts to save our environment
- lighten students' schoolbags
- keeps students happier.

Why should our project be implemented?

- heavy bags cause back and shoulder sores
- dangers of carrying heavy schoolbags: spinal deformities and may affect our walking patterns (asymmetrical gait patterns)
- schoolbags should only weigh less than fifteen percent of body weight

- average papers used in an entire school per day is around 2,000 pages
- in 2019, 1,011,000 tonnes of paper and cardboard used
- Only 449,000 tonnes were recycled

MIND MAPPING

Design thinking traits we had during our project development

CURIOUS

EXPERIMENTAL

OPTIMISTIC

COLLABORATIVE

CREATIVE

INNOVATIVE

School value we learnt

– Excellent in all our Endeavours

We believe that even though we had faced many problems trying to come up with an idea and trying to complete our prototype, we were able to achieve what we had planned. Through weeks of discussion, debating and cooperation, we achieved our goal.

THANK
YOU
