

IPW Presentation

By: 1/6

Group Members:

1. Paul Rieson (Leader)
2. Nicholas Tan
3. Gwyn Sam
4. Ashley Tan
5. Dario Tan

Content

1. What is a Study group
2. What inspired our group with creating the prototype
3. What were the materials we used for the prototypes
4. Pictures of our prototypes
5. What would be our further implantation
6. School Values we used for the prototypes
7. Example of the values we used
8. ?
9. ?

What is a study group?

- A study group is a group of students/peers that gets together to help each other to study.

What inspired our group with creating the prototype?

- Other schools implemented a study group for students to learn
- Study group is a very effective strategy for enhanced learning
- Groups share unique insights and learn from each other
- Group members can teach concepts that other members may not understand

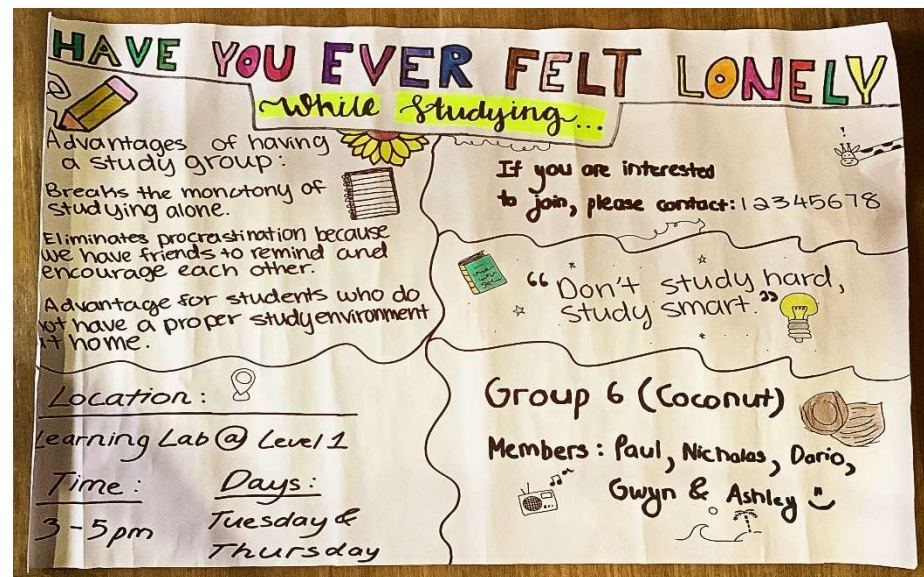

What were the materials used to make the prototypes?

1. Paper (Poster)
2. Coloured markers (Poster)
3. Coloured pencils (Poster)
4. Recycled empty tissue box (Suggestion Box)
5. Paper (Suggestion Box)
6. Velcro fastener (Suggestion Box)
7. Tape (Suggestion Box)

Pictures of our prototypes

School Values used for our
prototypes

cAring in Action

Excellent in all our
Endeavours

- Here's an example:

***E**xcellent in all our Endeavours*

“Excellent in all our Endeavours is one of the values we put into action in the making of our prototype as we were committed to putting our best efforts in our task and fulfilling every required requirements. Also, we were able to maintain an upbeat attitude of ourselves and the completion of our prototypes, despite challenges we faced along the way”

***cA**ring in Action*

“cAring for one another is very important. Each time we care for each other, it creates deeper bonds as we, individuals, lean on each other for emotional support. Everyone should be cared. Caring can nurture positive relationships and keep the environment going. We can care for each other by showing kindness and concern for others.”

Thank You!
