

ANDERSON SECONDARY SCHOOL
WITH CONSTANCY AND PURPOSE

The Anderson Experience

WHO MAKE A DIFFERENCE FOR THE GREATER GOOD

OUR ANDE VALUES

- c**Aring in Action
- N**oble in Character
- D**aring in our Dreams
- E**xcellent in all our Endeavours

“

Developing and inspiring in all Andersonians a sense of purpose, and constancy to reach their full potential for self and nation.

”

OUR ANDERSON MISSION

Why Anderson?

1 STEM EDUCATION

The focus on Science, Technology, Engineering and Mathematics (STEM) encompasses programmes such as the **Science Research Programme (SRP)** and **Computational Thinking**, which aim to nurture future-ready students. The **Elementz Science Project Competition** is also a key event where students present their research projects and participate in a myriad of workshops together with students from cluster schools.

2 EMAS

ANDSS is one of four centres in Singapore for the **Elective Programme for Malay Language in Secondary School (EMAS)**. This is an MOE initiative that aims to nurture students with **talent and interest in Malay Language** to attain a **high level of proficiency** in the language and a **deep appreciation of Malay culture**. EMAS students in ANDSS can look forward to activities such as the Sec 3 Malay Literature Script Writing Workshop and Dialogue session with writers.

3 DEVELOPING LEADERS

Every Andersonian is a **noble servant leader**, who is ready to lead with **courage, integrity and honour**; yet remains **humble and patient, gentle and kind** so as to **inspire and contribute meaningfully** to the community. Representatives from our various student leadership bodies also have the opportunity to further hone their skills in new environments, as they embark on camps and learning journeys.

4 LEARNING BEYOND THE CLASSROOM

We believe in creating opportunities for our students to carry on the spirit of learning everywhere they go. To this end, we have curated a myriad of **authentic learning experiences**, from local learning journeys to academic and CCA overseas trip, and partnerships with overseas schools and organisations. Some of these include the **Humanities Overseas Trip** and the **school exchange with Winitsuksa School** in Lopburi, Thailand.
